Establishment - Temporary - 2 draftsmen - Retention for 1931-32 - proposed.

(e) The extended term of office of the 2 temporary draftsmen, which was sanctioned in G.O.No.Ms.446, Rev.Dept., dated 13th March 1930 communicated with B.P.841, Mis., dated 15th March 1930, will expire on 31st March 1931. The Sub-division work shows no signs of declining. In the year ending 28th February 1931 the number c sub-divisions sanctioned exceeded that of the preceding 2 years, 11800 against 10296 and 9864. The total number of Sub-divisions including those pending on 28th February 1930 which required origi nal scrutiny during the year ending 28th February 1931 was 13116. Of these, 10315 were scrutinised within the year. The number of Sub-divisions which were pending with the Revenue Inspectors for removal of defects at the end of the year was 2217 against 2064 of the previous year. The Sub-divisions plotted during the year amounted to 8767 and those that remained for plotting numbere 5779 against 4384 of the previous year. A special feature of thi district is that a large number of new fields are being sanctioned each year. The work of plotting these fields is more considerabl than that of ordinary Sub-divisions as the former involves delinea tion of the new fields in the maintenance set of village maps and also in the maps of the blocks from which they were formed besides correction of side numbers in the maps of the fields affected. As a result the progress in scrutiny and plotting is retarded.

2. The scrutiny and the plotting of the new sub-divisions and fields do not constitute the sole work of the draftsmen. Case of wrong survey are discovered and dealt with each year. They are also received for scrutiny. In them the computation of areas done by one draftsman is got checked by another to ensure accuracy.

At the revision of waste blocks in 1918 many new fields were created without plottable data for them. Steps have now been taken to supply independant plottable data for them. The sketches

with

with the data are being received for scrutiny and the data are got inserted by the draftsmen in the Taluk copies of the Field Measurement Books.

3. An additional town surveyor for the Mangalore Municipality has been sanctioned in G.O.No.Ms.2132, Rev., dated 6th November 1930 communicated with B.P.6843, Rout. dated 11th November 1930 for one year with effect from 1st March 1931 to clear up the heavy arrears of resurvey work necessitated by land acquisition and wrong survey. Thus a larger amount of work for the draftsmen is expected in the ensuing official year. In the interest of administration the retention of the two temporary draftsmen for that year will, thus, be necessary. I request that the Government may be moved to sanction it. The necessary cost has been included in the budget estimate under "5 (a) - Land Revenue - Charges of administration - Taluk Establishments.

ORDER.

No. 714, dated 27-3-1931.

(C)

The Govt are satisfied that the amount of work connected with the scrutiny of the subdivision sketches and the plotting of them in the Field measurement Books in the S. Kanara Dn continues to be such that the further retention of the two draftsmen sanctioned in G.O. 446 Rev dt 13.3.30 is necessary. They accordingly sanction the retention of the two draftsmen for a further period of one year from 1-4-31.

2. The cost of the establishment

should be met from the provision already made in the B.E for 1931-32 under "5. a. Land Rev - Charges of Administration - A. Taluk Establishments - Pay of Establishments - Temporary".
